REPORT OF THE SCHOOL BOARD.

In presenting our annual report it is gratifying to record, with one or two exceptions, a year of fair success and general prosperity.

During the past year we have been made more than ever sensible of the value of our public schools and the necessity of all interested, laboring to raise their standard, and place them on a footing whereby we may receive the greatest benefit.

A serious evil in our schools is the great multiplicity of classes if, indeed, it can be said a school is classed at all, when the teachers have nearly as many recitations in any given branch, as there are pupils attending to it.

There should be but two classes in grammar, two in geography, no more than three in written arithmetic, in any of our schools.

In the matter of attendance there is much room for improvement. Irregular attendance most certainly destroys the interest of the scholar in his school, and when this is continued so as to become habitual, the value of the school is almost entirely lost to the pupil.

Parents should interest themselves in what their children are doing in school; in the progress that they are making in their studies; in their position and rank in class. In this way they would aid a teacher greatly in stimulating effort.

That our schools may be still more efficient for the pro-

motion of intelligence, morality and refinement, let us bring to their management still more liberality, more judgment and more interest.

Annual Report of the Trustees of the Haynes Library.

The trustees of the Haynes library herewith submit the ninth annual report of the library, also the report of the librarian, and the report of the treasurer of the trustees, each of which sets forth in detail the affairs of the library, which have come before them.

The services of Mrs. Bullock as librarian have, as in years past, given satisfaction to the trustees.

Of the books: they have in a general way been well used. A few have been added, being presents to the library by individuals, and also some by the state, for which the trustees return thanks.

The books and furniture of the library room have been insured for \$800, the trustees feeling unsafe to have that amount of property without some insurance.

Our funds have been increased by a gift from Clark Haynes of \$1,000, which has been deposited in the bank and can only be drawn by order from the proper library officers.

The trustees have purchased but few books the past year, but hope that new ones will be added to the library soon.
